

Tips for Online Teaching with Tofauti on the Move!

- ⌘ Create a relaxed and friendly atmosphere in your classroom.
- ⌘ Speak slowly and clearly, using natural/colloquial English.
- ⌘ Encourage students to talk to each other in English. Discourage use of their native language in class.
- ⌘ Give students plenty of time to talk and interact with each other.
- ⌘ Let stronger students help weaker ones. Pair them up for some activities.
- ⌘ Don't jump in to correct errors too often. This will stifle communication and undermine students' confidence.

- ⌘ Cover one lesson from the book (A,B,C,D,E, or F) in each class session.
- ⌘ However, you do not need to complete every lesson or every exercise in the lesson.
- ⌘ Assess progress by giving unit tests when you finish the unit.
- ⌘ Adapt your lesson plans to the students you have, and don't hesitate to go in a different direction if you see they need something else.
- ⌘ Communicate with your co-teacher as soon as possible after your class.

- ⌘ **Smile and have fun!**
